

"Embracing Curved Geometries", residential building in Kifisia, Athens, Design year: 2020.

Το αρχιτεκτονικό γραφείο Kordas Architects ιδρύθηκε στην Αθήνα το 2006, με στόχο την παροχή προηγμένων αρχιτεκτονικών υπηρεσιών σε ολόκληρο το φάσμα των κτιριακών έργων.

Μέσα σε δύο δεκαετίες, το γραφείο έχει ολοκληρώσει μεγάλο αριθμό έργων στην Ελλάδα και στο εξωτερικό, έχοντας αποσπάσει διακρίσεις και αναγνώριση για την υψηλή σχεδιαστική και κατασκευαστική του ποιότητα.

Βασικός άξονας της προσέγγισης των Kordas Architects είναι η ολιστική αντιμετώπιση κάθε αρχιτεκτονικού έργου, μέσω της συντονισμένης διαχείρισης του συνόλου των παραμέτρων και ιδιαιτεροτήτων του. Το περιβάλλον και το πλαίσιο στο οποίο εντάσσεται ένα έργο, οι ανάγκες του χρήστη και οι διαθέσιμοι πόροι, αποτελούν δημιουργικές δυνάμεις, που τροφοδοτούν την αρχιτεκτονική δημιουργία. Η ισορροπία αισθητικής και λειτουργικότητας προσεγγίζεται μέσα από τη διαχείριση κάθε σχεδιαστικής πρόκλησης με όρους τόσο λογικής όσο και αισθητικής προσέγγισης.

"Minimal Stage Set", cardio clinic in Larissa

Architectural design: Kordas Architects

Location: Larissa

Completion year: 2022

Photo credits: Kostas Kroustallis

The medical practice in Larissa is designed with a minimalist and hygienic look. The doctor is placed at the center of a workspace that conveys calm and professionalism. The design includes a waiting area with a reception desk, a guest bathroom, and a private section with the doctor's office and examination rooms.

**"Embracing Curved Geometries",
residential building in Kifisia**
Architectural design: Kordas Architects
Location: Kifisia, Athens
Design year: 2020

The building's design draws inspiration from the area's natural environment, gracefully embracing curved geometries to harmonize with the surroundings. Textured plastered surfaces, wooden details, and vegetation along the building's perimeter define its character, aiming to create a naturalistic ambiance within the scale of a real-life building.

"Transpositioning Volumes", house in Paiania

Architectural design: Kordas Architects

Location: Paiania, Athens

Completion year: 2023

Photo credits: Spyros Hound Photography

Designed for a family in a rural area outside Athens, this house incorporates cinematic elements into its architectural and landscape design to connect with nature and daily activities. Pathways and oversized windows create a domestic space within its natural surroundings, allowing residents to enjoy the garden and pool while experiencing panoramic views from within the building.

"Zante Resort", hotel in Zante Island
Architectural design: Kordas Architects
Location: Zakynthos
Design year: 2021

Designed with a minimalist aesthetic, the resort embraces the local architectural style, incorporating iconic arches in communal areas. These arches serve both as architectural features and as conduits for light and air, seamlessly connecting the interior with the surrounding landscape. The sea-facing suites offer a refined and tranquil experience, merging indoor and outdoor spaces to invite the beauty of the sea inside. This design integrates local heritage, natural landscapes, and modern luxury, creating a sanctuary for guests to enjoy the timeless beauty of the island with modern comfort.

"Anchored to the rock, gazing at the sky", residential complex

Architectural design: Kordas Architects

Location: Penteli, Athens

Completion year: 2023

Photo credits: Sotiris Kotsanis

Situated on a gentle slope, the residential complex integrates smoothly with the natural landscape. The structure begins on a stone base, ascending elegantly across two well-planned floors, celebrating strength and solidity inspired by the surrounding mountain's forms. Thoughtfully designed openings in the exterior organize the façade and provide glimpses of the surroundings, allowing natural light to fill the living spaces and connect with the mountainous environment.
